LEVELFIX 860H

Rotary construction laser horizontal

X 860H Horizontal Rotation Laser

Features

- Up to 800 meter working range
- Equipped with manual slope and TILT function
- High accuracy
- Up to 55 hours working time
- Robust IP67 construction

Standard delivery

- Digital mm detector DLD100GR
- Rod clamp
- Battery and charger
- Hard carry case

Description

The new standard

The 860H is a robust horizontal construction laser that will perform under the toughest conditions. The 860H is equipped with an extremely robust housing and its IP67 classification protects it from all weather conditions. Its excellent specifications make the 860H a reliable partner for any project.

Reliability time after time

Thanks to the tilt function, the laser constantly checks the height, so that you are always working with the correct measurement. Does the height change due to movement? Then it locks automatically, so you never make a mistake. In addition to this function, the 860H has a manual function. With this function, you can quickly and easily set a manual slope on both the x and y axes.

Standard with digital receiver

The Levelfix 860H comes with the digital DLD100GR receiver, which gives it a range of up to 600 metres. This receiver is accurate, easy to use, moisture-resistant and can take a shock. The receiver also displays the difference from the 0-line in millimetres or inches

Endless use

You can work with the 860H for up to 55 hours before the battery needs to be recharged. But even then, you don't have to stop working. Thanks to the Charge&Work function, you can charge the laser while you are working. The 860H is thus the ideal construction laser for the most demanding of users and is, for good reason, part of our Levelfix Construct range.

7 jaar CONSTRUCT warranty

The LEVELFIX CONSTRUCT instruments are equipped with high-quality components, resulting in high reliability, excellent specifications and an instrument that you will enjoy for many years. These instruments come with a 7-year warranty*. You can rest assured that you can rely on a LEVELFIX Construct instrument

* Extend the standard 1 year warranty to 7 years by registering your laser within 2 weeks of purchase via the Internet.

Basic package

Art.no	554810
EAN	8712423016248

Set with 1.8m tripod (P180EM) and rod (LB240)

Art.no	554811
EAN	8712423016255

Specifications

Working range	800 metres (depending on detector range)
Accuracy	1.5mm @ 30m
Rotation speed	600 rpm
Functions	Rotate horizontally, manual slope on both axes, tilt function.
Laserclass	1
Working time	> 55 hrs with battery
Construction	IP 67
Rechargeable	Yes
