

LEVELFiX CCL210G

2D Green Beam line laser

X CCL210G 2D Green Beam line laser

Features

- Self-leveling 2D line laser with green beam
- High power laser diode
- Projects 360° horizontal and 2 vertical beams at 90°
- Option: detector MLD40GR - range 50m

Standard Package includes

- Li-ion battery pack with charger
- Dry battery Holder
- Magnetic wall mount
- Target plate

Description

The LEVELFIX CCL210G is a smart guy. Thanks to its cone, the horizontal line has a range of 360 degrees. This line is crossed by two vertical lines at an angle of 90 degrees, allowing the laser to be used for many different measurement and layout tasks.

Self-levelling

Due to its pendulum system, the CCL210G is self-levelling. To transport the laser safely, this system can be locked with the SmartLock system. When you switch off the self-levelling system, you can project at any angle.

Bright green

The bright green lines of the CCL210G are visible up to 30 meters. To extend this range to 50 meters, you can purchase the MLD40GR detector. This also allows you to use the laser outside, because the line does not have to be visible.

LEVELFIX Connect App

This smart laser can be connected to the LEVELFIX Connect app on your smart device. This allows you to control it remotely, change the brightness or download the user manual.

The CCL210G is a compact and versatile laser equipped with the highest quality beam and excellent specifications. Complete with a 4 year warranty* (registration required) and the necessary accessories to get started in seconds.

About LEVELFIX™ Smart Precision Tools - Innovative, accurate, robust and complete with a 4-year warranty*

With more than 25 years of experience and knowledge behind LEVELFIX lasers, they are manufactured with the utmost care and precision.

* Extend the standard 1 year warranty to 4 years by registering your laser within two weeks of purchase via internet.
